Zhu, Lichuan . . . . . .168

# Titles

A

Adsorption Process for Metal Recovery from Acid Mine Waste: The Berkeley Pit Problem. . . . . .120
Allergan-Isopropyl Alcohol Emissions Removal Using a Unique Biological System. . . . . .256
Application of Packed Scrubbers for Emissions Control in Municipal Wastewater Treatment Plants . 9
Aqueous Absorption of Nitric Oxide Induced by Sodium Chlorite Oxidation in the Presence of Sulfur Dioxide. . .. . . . . . .80
Automated Model Building and Modeling of Alcohol Oxidation in High Temperature Water. . . . . .221

B

Biofiltration of Benzene Contaminated Air Streams Using Compost-Activated Carbon Filter Media. . . .168
Biotreatment of Ammonia in Air by an Immobilized Nitrosomonas europaea Biofilter. . . . . .70

C

Case Studies of Industrial Partnerships in the Sarnia-Lambton Area of Southern Ontario. . . . . 96
Characterization, Decontamination and Health Effects of Fly Ash from Waste Incinerators . . . . . 261
Chlorine and Chlorine Chemistry . . . . . .161
Composting of a Heavy Oil Refinery Sludge . . . . . 24
Corona-Induced Chemical Scrubber for the Control of $NO_x$ Emissions . . . . . .183

E

Economic Evaluation of Catalytic Supercritical Water Oxidation: Comparison with Alternative Waste Treatment Technologies . . . . . 246
Effect of Oxygen Exposure on the Methanogenic Activity of an Anaerobic Bacterial Consortium, The . . . . . 104
Emissions of Hazardous Air Pollutants from Aeration Tanks . . . . . .148
Evaluation of Lean NOx Reduction Catalysts for Controlling Emissions from Diesel Engines . . . . . .48

G

Gasification of Sewage Sludge and Other Biomass for Hydrogen Production in Supercritical Water . . 215

H

Hydrothermal Oxidation of Model Molecules and Industrial Wastes . . . . . .240

I

Improved Algorithm for Estimating Process Emissions from Batch Depressurization . . . . . ..195
Improved Algorithm for Estimating Process Emissions from Batch Heating . . . . . 190
Investigative and Management Techniques for Cement Kiln Dust and Pulp and Paper Mill Process Wastes . . . . . .142

L

Life Cycle Assessment in the Steel Industry . . . . . 92

M

Magnitude and Source of Air Emissions from Asphalt Blowing Operations, The . . . . . .53
Membrane Separation Processes for Clean Production . . . . . .137
Mercury Capture by an Activated Carbon in a Fixed-Bed Bench-Scale System . . . . . 203
Municipal Landfill Leachate Management . . . . . .278

P

Paint Spray Booth Design Using Recirculation/Partitioning Ventilation . . . . . .199
Pilot Plant to Treat Chromium Contaminated Groundwater, A . . . . . 209
Precipitation and Separation of Chloride and Sulfate Ions from Aqueous Solutions: Basic Experimental Performance and Modeling. . 126
Practical Guide for Determining the Solubility of Metal Hydroxides and Oxides in Water, A . . . . . .1
Preparation of Calcium Silicate Absorbent from Recycled Glass . . . . . .86
Pure air's Advanced Flue Gas Desulfurization Clean Coal Project . . . . . .173

R

Recovery of Fuels and Chemicals Through Catalytic Pyrolysis of Plastic Wastes . . . . . 19

S

Science Plus Management Equals Successful Remediation . . . . . .111
Simple Method for Estimating Cyclone Efficiency, A . 77
Sonochemical Treatment of Benzene/Toluene Contaminated Wastewater . . . . . .. 154
Sorbent Regenerator Simulation Model in Copper Oxide Flue Gas Cleanup Processes, A . . . . . 61
Supercritical Oxidation in Water and Carbon Dioxide . . . . . 234
Surmounting Design Problems in a Complex Piping System for Groundwater Remediation . . . . . 38

T

Twenty Years of Site Remediation via Incineration in the United States . . . . . 31

W

Wet Air Oxidation of Refinery Spent Caustic . . . . . 28
Waste Treatment and Optimal Degree of Pollution Abatement . . . . . 270

# Subjects

A

Acid mine waste . . . . . .120
Activated carbon . . . . . .203
Adsorption process . . . . . .120
Aeration tanks . . . . . .148
Air
  biotreatment of ammonia in . 70
  emissions . . . .9, 48, 53
  pollutants . . . . . .148
Alcohol oxidation . . . . . .221
Algorithm, improved. . . . . 190, 195
Allergan-isopropyl . . . . . .256
Alternative waste treatment . . .246
Ammonia, biotreatment of . . . . 70
Anaerobic bacterial consortium.104
Aqueous solutions . . . . . .126
Ashphalt blowing operations . . 53

B

Benzene/toluene . . . . . .154
Biomass, gasification of . . . . . .215
Biofilter, immobilized . . . . . 70
Biotreatment of ammonia in air. 70

C

Calcium silicate absorbent . . . . 86
Carbon
  dioxide . . . . . .234
  filter media . . . . . .168
Catalysts, $NO_x$ reduction . . . . . 48
Chlorine . . . . . .161
Coal, clean . . . . . .173
Contamination
  benzene . . . . . .168
  benzene/toluene . . . . . .154
  chromium . . . . . .209
Cyclone efficiency, estimating . 77

D

Depressurization, batch . . . . . .195
Design, paint spray booth . . . .199
Desulfurization, gas . . . . . .173
Dusts, cement kiln . . . . . .142

E

Emissions
  air
    from asphalt blowing . . . . 53
    scrubbers for control of . . . 9
  alcohol . . . . . .256
  from diesel engines . . . . . 48
  nitrogen oxide . . . . . .183
  process. . . . . 190, 195

F

Fixed-bed-bench-scale system .203
Flue gas cleanup process . . . . . 61
Fly Ash, health effects of . . . . .261
Fuels, recovery of . . . . . 19

G

Gasification of sewage sludge .215
Groundwater, contaminated . . .209

H

Hazardous
  air pollutants . . . . . .148
  waste. . . . . 19, 24
Hydrogen production . . . . . .215

I

Ions, chloride and sulfate . . . . .126
Incineration, remediation via . . 31
Industrial partnerships, study of. 96

L

Landfill, municipal . . . . . .278
Leachate management . . . . . .278

M

Membrane separation . . . . . .137
Metal
  hydroxides . . . . . 1
  recovery . . . . . .120
Molecules, model . . . . . .240

N

Nitric oxide, absorption of . . . . 80
Nitrogen oxide
  emissions . . . . . .183
  reduction . . . . . 48

O

Oil refinery sludge . . . . . 24
Oxidation
  alcohol . . . . . .221
  hydrothermal . . . . . .240
  supercritical water. . 215,234, 246
Oxide(s)
  copper, in cleanup process . . 61
  in water . . . . . 1
Oxygen exposure, effect of . . .104

P

Paint spray booth design . . . . .199
Plants, wastewater treatment . . 9
Process emissions . . . . . .195
Pulp and paper mill wastes . . .142

R

Recycled glass . . . . . 86
Remediation
  groundwater. . . . . 38, 209
  science plus management . .111
  site . . . . . 31

S

Scrubber(s)
  chemical . . . . . .183
  packed . . . . . 9
Site remediation . . . . . 31
Sludge
  oil refinery . . . . . 24
  sewage . . . . . .215
Sodium chlorite oxidation . . . . 80
Solubility of metal oxides . . . . . 1
Sonochemical treatment . . . . . .154
Sorbent regenerator . . . . . 61
Steel industry, pullution control 92
Sulfur dioxide . . . . . 80
Supercritical
  water oxidation. . .215, 234, 246

V

Ventilation . . . . . .199

W

Waste(s)
  acid mine . . . . . .120
  incinerators, fly ash from . . .261
  industrial . . . . . .240
  plastic, pyrolysis of . . . . . 19
  pulp and paper mill . . . . . .142
  treatment. . . . . 246, 270
Wastewater treatment. . . . . 9
Water
  high temperature . . . . . .221
  oxides in . . . . . 1
  supercritical . . . . . .215
